SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 12/24/20 at 1100 hours:

- 79,420,466 (+713,640) total confirmed cases in 218 (-2) countries. World count amended due to error.
- 1,744,169 (+13,616) total deaths.

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 12/24/20 at 1000 hours:

- 18,391,571 (+221,408) total confirmed cases.
- 325,096 (+3,362) total deaths.

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 12/24/20 at 1100 hours:

- 2,003,146 (+39,070) total confirmed cases.

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

On 12/25/2020 at 1027 hours, Charter has reported a Community Isolation affecting users in Los Angeles, Los Angeles County. The total count is below the minimum threshold and therefore, this ticket is non-reportable.

- Time Outage Started: 12/24/20, 2135 hours
- Time Outage Reported: 12/24/20, 2221 hours
- Time of Resolution/Restoration: 12/25/20, 1950 hours
- Total Outage Time: 22 hours and 15 minutes
- Jurisdiction Affected: Los Angeles County
- Reason For Outage: Charter Network Fault
- Wireless Users Impacted: No
- Wireline Users Impacted: No
- VoIP Users Impacted: Yes

Service Interruptions

- None Reported

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Winter Storm Warning today to Saturday at 1800 hours
 - 8" - 18" of snow across the southern Cascade Range and northern Sierra Nevada west slopes, up to 2' over the peaks
 - 4" - 8" of snow over the Coast Range and mountains of northern Shasta County, with 1" - 2" possible down to 2000 feet including I-5

SOUTHERN CALIFORNIA

- With ongoing precipitation over the weekend, Sunday will see peak rainfall rates up to 0.50", which will bring concerns for recent burn areas, in particular the Bobcat Burn Area.

Weather Advisories, Watches, and Warnings currently active in California:

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

12/26/20 - 01/01/21

Saturday-Saturday Night

- Periods of rain and higher elevation snow continue through early afternoon over northern California, diminishing into this evening. Snow levels generally above 4,500 feet.
 - Impacts to travel still expected over the northern California passes and Interstate 80
- Winds gusting up to 60 mph for higher spots in the Tahoe Basin and wind prone areas along US-395, with speeds subsiding this afternoon and evening
- No significant debris flow concerns expected as lower elevation rain winds down
- High surf and an increased risk for rip currents expected for coastal southern California

Sunday-Monday Night

- Next weather system will impact mainly the central and southern portions of the state, though some lighter precipitation is also possible across northern California. Potential impacts include:
 - Locally heavy precipitation over the central and southern Sierra as well as southern California mountains, with a few thunderstorms also possible at times
 - Heavy snowfall, generally above 4,500 feet
 - Minor mud slides or debris flows possible in the vicinity of recent burn scars, especially if heavier rain rates develop. Some minor urban flooding also possible across southern California.
- Periods of high surf and an increased rip current threat will exist Sunday into early Tuesday for coastal areas of southern California

Tuesday-Friday

- Dry weather statewide Tuesday and Wednesday
- Next storm system expected to bring additional precipitation to northern California by Thursday and Friday

CALIFORNIA WEATHER IMPACTS

12/26/20 - 01/01/21
